

RENEWABLES FIRST

Energy Finance Analyst

Location: G-8 Markaz, Islamabad

Department: Energy Finance Program

Type: Full time

Contract: 1 year

About Renewables First

Renewables First (RF) is a think tank for energy and the environment. RF's work addresses critical energy and natural resource issues with the aim of making energy and climate transitions just and inclusive through impactful research, advocacy, and strategic partnerships.

Job Description

Renewables First seeks a proactive and adaptable Energy Finance Analyst for its Energy Finance vertical. This early career position plays a key role in research, program design and related activities under the Finance vertical.

Key Responsibilities

Financial Analysis and Modeling

- Conduct comprehensive financial analysis for diverse energy projects (solar, wind, hydro, coal, thermal, biomass)
- Assess energy project feasibility, cost projections, and revenue potential
- Evaluate early retirement costs and potential substitutions
- Develop and maintain financial models for energy transition and project tariffs
- Analyze various financing options (debt, equity, green bonds, blended mechanisms, tax incentives, subsidies)

Market Research and Risk Assessment

- Monitor trends, policies, and market dynamics in Pakistan's and global energy sectors
- Identify investment opportunities and potential risks through market data analysis
- Evaluate financial risks associated with renewable energy investments
- Propose risk mitigation strategies and conduct sensitivity analyses

Policy Analysis and Reporting

- Collaborate with the policy team to interpret energy regulations and their financial implications
- Prepare detailed reports and presentations on financial analysis findings
- Communicate complex financial concepts clearly and accessibly

RENEWABLES FIRST

Stakeholder Engagement and Program Development

- Engage with industry stakeholders, investors, and financial institutions locally and internationally

Data Management and Research

- Compile and maintain finance datasets related to the power sector
- Research various financing instruments and business models for renewable energy deployment
- Stay informed about global renewable energy finance trends and best practices

Qualifications and Skills

- Bachelor's degree in economics, finance, accounting or a related field.
- 01-03 years of experience in equity research, corporate finance, public policy, business journalism or other relevant fields.
- Excellent written and verbal communication skills in English.
- Proficiency in research writing.
- Knowledge of or strong interest in renewable energy, climate change, and sustainable development issues.
- Proficiency in Microsoft Office.
- Self-driven and proactive, demonstrating a strong capacity to take initiative.

What We Offer

- Competitive salary commensurate with experience.
- Opportunities for professional growth and development in the renewable energy and climate action sector.
- A dynamic and collaborative work environment with a team passionate about driving positive change.
- The chance to contribute to Pakistan's energy transition and climate resilience efforts.

Application

If you would like to become part of our dynamic team, apply at your earliest. We process applications on a rolling basis.

Female candidates are strongly encouraged to apply.
