

RENEWABLES FIRST

Data and Insights Analyst (Energy)

About Renewables First

Renewables First (RF) is a pioneering think tank for energy and the environment. Our work addresses critical energy and natural resource issues to make energy and climate transitions just and inclusive. By emphasizing inclusivity and immediate action, we are positioned to drive change that is both sustainable and equitable.

Job Description

Renewables First is seeking a **Data & Insights Analyst** for its Data team. The successful candidate must be equipped with advanced data analysis skills and a firm understanding of energy sector dynamics, which will be applied to conceptualize and deliver actionable insights. RF expects its analysts to become thought leaders in ongoing debates for the energy and climate transition.

The Tasks

1. Frame innovative energy policy questions, perform analysis on relevant datasets, and derive actionable recommendations for key stakeholders.
2. Lead the development and delivery of recurring and adhoc reports and insights.
3. Support the development of interactive dashboards using tools such as Tableau.
4. Work closely with RF's data, research, and markets team to enhance analysis quality and create dissemination outputs.
5. Provide technical support to the Data team for the identification of relevant information, sources, trends, and insights.

We Expect

- An interdisciplinary university degree in fields such as public policy, engineering, data sciences, etc.
- A few years of work experience in a similar role with a demonstrated history of professional growth and development.
- Excellent writing and presentation skills (Samples will be requested during the selection process)
- Strong knowledge of the development of data pipelines and a proven ability to conduct research through data usage and data methods.
- Proficiency in Excel and PPT and data visualization programs (Tableau/Power BI)

We Offer

- Competitive salaries and remuneration.
- Opportunities for personal and professional growth and development.
- The chance to work with a resolute and committed team on key future tasks.
- A diverse working environment in a cooperative working atmosphere.
- Flat communication and decision-making hierarchies.
- The opportunity to actively help shape national policies, plans, and directions.
- A friendly and supportive team, all passionately committed to addressing the climate and energy crises.

RENEWABLES FIRST

Application

If you would like to become part of our dynamic team, apply at your earliest. The last date to apply for this position is **20th August 2024**. We process applications on a rolling basis.

Female candidates are strongly encouraged to apply.
